

INTELLIGENCE AND LOGIC COMBINED FOR A BETTER IT WORLD

With many years of experience in technology, Intelogico helps organizations achieve their objectives and IT goals. Formed of multiple consultants with different IT backgrounds and experience, Intelogico is addressing all the IT services a company would need to overcome the world tech challenges.

It is a priority for Intelogico to hold the required certifications, to guarantee projects success and user satisfaction. 24/7 Support is available to ensure clients operational continuity.

IT INFRASTRUCTURE

Intelogico consultants can assist in telephony, networking and security, servers, operating systems, databases, cabling and programming.

CLOUD JOURNEY

As a Google cloud partner, Intelogico works with customers to make the move as smooth and convenient as possible.

CHATBOT

Chatbot is a must-have on every company's website. Intelogico is a leader in this industry and with its custom solution, bots and users can interact 24/7.

PAY PER USE TELEPHONY

Intelogico was able to build a pay per use telephony service. The service provides basic fully redundant telephony features over the internet.
